

Dividing Objects into Equal Groups

Directions: You are going to divide objects into equal groups. Read each problem carefully. Draw circles to show your groups. Then write a division equation to match your picture.

There are 12 apples. Divide them into 3 baskets.

- Using circles, separate the apples into 3 equal groups.
- Each group has _____ apples.
- Equation: $12 \div 3 = \underline{\hspace{2cm}}$

There are 15 stickers. You want to share them equally among 5 friends.

- Separate the stickers into 5 equal groups
- Each friend gets _____ stickers.
- Equation: $15 \div 5 = \underline{\hspace{2cm}}$

There are 18 crayons. Divide them into 3 containers.

- Using circles, separate the crayons into 3 equal groups.
- Each group has _____ crayons.
- Equation: $18 \div 3 = \underline{\hspace{2cm}}$

There are 14 cookies. Divide them into 2 trays.

- Using circles, separate the cookies into 2 equal trays.
- Each tray has _____ cookies.
- Equation: $14 \div 2 = \underline{\hspace{2cm}}$

There are 21 balls. Divide them equally among 7 friends.

- Using circles, separate the balls into 7 equal groups.
- Each friend gets _____ balls.
- Equation: $21 \div 7 = \underline{\hspace{2cm}}$

There are 24 spoons. Divide them equally among 3 drawers.

- Using circles, separate the spoons into equal groups.
- Each drawer has _____ spoons.
- Equation: $24 \div 3 = \underline{\hspace{2cm}}$

Dividing Objects into Equal Groups

Directions: You are going to divide objects into equal groups. Read each problem carefully. Draw circles to show your groups. Then write a division equation to match your picture.

There are 12 apples. Divide them into 3 baskets.

- Using circles, separate the apples into 3 equal groups.
- Each group has 4 apples.
- Equation: $12 \div 3 = \underline{4}$

There are 15 stickers. You want to share them equally among 5 friends.

- Separate the stickers into 5 equal groups
- Each friend gets 3 stickers.
- Equation: $15 \div 5 = \underline{3}$

There are 18 crayons. Divide them into 3 containers.

- Using circles, separate the crayons into 3 equal groups.
- Each group has 6 crayons.
- Equation: $18 \div 3 = \underline{6}$

There are 14 cookies. Divide them into 2 trays.

- Using circles, separate the cookies into 2 equal trays.
- Each tray has 7 cookies.
- Equation: $14 \div 2 = \underline{7}$

There are 21 balls. Divide them equally among 7 friends.

- Using circles, separate the balls into 7 equal groups.
- Each friend gets 3 balls.
- Equation: $21 \div 7 = \underline{3}$

There are 24 spoons. Divide them equally among 3 drawers.

- Using circles, separate the spoons into equal groups.
- Each drawer has 8 spoons.
- Equation: $24 \div 3 = \underline{8}$
